Tips for Success

- Watch the film on your own before showing it to children; identify any words or images that may require additional information or explanation.
- Stop the video or replay certain moments to allow for questions or comments from the children.

Before You Watch...

- Group Discussion Questions: Choose a few questions from the list below to ask your children. Keeping your questions open-ended will get your children speaking more and allow them to express themselves more than a simple “yes or no” question. Offer your own answer to the question as a way to model conversation!
  - What makes you YOU? How are you different or similar to other kids your age?
  - Why is it important that everyone is different? What would happen if everyone looked the same or liked the same things?

After You Watch...

- Looking for more inspiration of others who have overcome adversity to Dream Big? Watch Let’s Meet Dr. Valerie Capers!
- Group Discussion Questions: Select a few questions to ask children about their experiences listening to the read-aloud.
  - What was your favorite part of Just Ask? Why?
  - How are you similar to any of the children in the book?
  - Have you ever met any other children with conditions like those in the book?
